EXPERIENCE

2024-PRESENT

Azami Global | Product Designer

Leading UX design for a B2B SaaS platform, owning the end-to-end design process from discovery to delivery.

- **Leading UX design for a B2B SaaS platform**, owning the end-to-end design process from discovery to delivery for complex workflows and system features.
- **Conducting user research and usability testing** to deeply understand client needs, uncover pain points, and continuously refine user flows and interaction patterns.
- **Collaborating cross-functionally** with product management and engineering teams to translate complex requirements into user-centered, scalable design solutions.
- **Defining and iterating on wireframes, prototypes, and high-fidelity designs in Figma**, contributing to design system standards and delivering clear specifications for developers.
- **Making AI tools an integral part of the product building process** and creating a unified workflow across design, research, product, and engineering.

2021-2023

Wix.com | Product Designer

Web platform for creating professional-looking personal and business websites.

- Owned the full design process for product initiatives - studying market trends, competitor analysis, and user data to form design and product recommendations.
- Collaborated with UX designers, product managers, and frontend developers to understand user requirements and deliver clear, accessible design specs aligned with product goals.
- Drove design consistency across product surfaces, ensuring experiences were on-brand, scalable, and optimized for user engagement.
